Stay Clear Of Overhead Lines

DO NOT stand on the top of trucks. You can make contact with overhead lines. Coming close to or into contact with overhead lines will endanger your life.

DO NOT exceed 15 feet height with vehicles. Vehicles that are over 15 feet from the ground (including equipment) can interfere with overhead lines.

DO NOT use bamboo, wooden or metal rods to lift electricity lines to accommodate equipment on trucks. This could result in loss of life and damage electricity lines and equipment.
