GOVERNMENT OF TRINIDAD AND TOBAGO

A LICENCE

Granted to

.....

Under the provisions of Section 66 of the

TRINIDAD AND TOBAGO ELECTRICITY COMMISSION ACT

CH. 54:70

For the Operation

of the installation(s) Established at

.....

.....

For Official Use Only

Approved by the Minister of Public Utilities

this day of 20.....

.....
Minister of Public Utilities

ISSUED ON

VALID UNTIL

RENEWED/AMENDED

1. This Licence is issued under and subject to the provisions of the Trinidad and Tobago Electricity Commission Act Chapter 54:70 (hereinafter referred to as “the Commission”) and of any amendment of the Act or any such regulations.

2. The Licensee is authorised to establish and/or continue to use an installation for the supply of electricity under the Act at
..... in the County of
and for the purpose to construct, operate, use and maintain an installation as shown in the First Schedule hereto. Provided that this authority shall come to an end on the day of in the year
(Date for Official Use Only)

3. The Licensee must install an approved changeover device of acceptable standard to avoid feedback into the Commission’s System where there is an existing supply of electricity.

4. The Licensee may add to, alter or enlarge the installation and extend electricity supply lines provided that the Licensee may not without the previous approval of the President add to or enlarge the generating capacity of the installation, and shall submit to the Commission an annual return showing all modification to, and changes in the installation during the preceding twelve months.

5. The supply shall be restricted to the Licensee’s own private use.
